Sl. No.	CLASS XII COMPUTER ASSIGNMENTS 2024 25
	Assignments Name
1	Write a program to add first n natural numbers using recursion.
2	Write a program to find the factorial of n using recursion.
3	Write a program to find the GCD between two numbers using recursion.
4	Write a program to find the reverse of a number using recursion.
5	Write a program to add the digits of a number using recursion.
6	Write a program to check a number is Armstrong or not using recursion.
7	Write a program to check a number is Prime number or not using recursion.
8	Write a program to convert Decimal to Binary using recursion.
9	Write a program to check a string is unique or not.
10	Write a program to remove all common characters from a string.
11	Write a program to print all palindrome words from a string.
12	Write a program to demonstrate Binary search using functions and constructor.
13	Write a program to demonstrate Bubble Sort using functions and constructor.
14	Write a program to demonstrate Selection Sort using functions and constructor.
15	Write a program to demonstrate Insertion Sort using functions and constructor.
16	Write a program to add two 2D arrays using Call by reference.
17	Write a program to demonstrate Inheritance using functions and constructor.
18	Write a program to demonstrate Interface program using functions and constructor.
19	Write a program to demonstrate Stack operations using functions and constructor.
20	Write a program to demonstrate Queue operations using functions and constructor.
